Critical illness insurance: Why is it so important?

Medical bills have contributed to 58% of bankruptcies.¹ In 2020, one in four working-age adults with insurance coverage reported medical bill problems or debt in the past year.²

The financial consequences of surviving a critical illness are something few people are prepared for. Expenses that may not be covered by medical plans, such as co-pays, deductibles, childcare, mortgage, groceries and experimental treatments, could cut into your savings.

When critical illness affects your family, **you'll have the support you need** when it matters most **with MetLife Critical Illness Insurance.**

How it works

Critical Illness Insurance is coverage that can help safeguard your finances by providing you with a lump-sum payment — one convenient payment all at once — when you or your loved ones need it most. The extra cash can help you focus on getting back on track without worrying about finding the money to cover the costs of treatment.

And best of all, the payment is made directly to you, and is in addition to any other insurance you may have. It's yours to spend however you like, including for everyday living expenses.

While recovering, critical illness insurance is there to make life a little easier.

Critical Illness Insurance

Get financial support when you or a loved one has a verified diagnosis of a covered condition.

Critical illness insurance helps you manage expenses — so you can focus on getting well.

As long as you or your loved one meets the policy and certificate requirements, the following medical conditions are covered:⁵

- Cancer⁶
- Heart Attack⁷
- Stroke⁸
- Major Organ Transplant⁹
- Coronary Artery Bypass Graft¹⁰
- Kidney Failure
- Sudden Cardiac Arrest
- 3 Childhood Diseases
- 10 Infectious Diseases
- 10 Progressive Diseases

With MetLife Critical Illness Insurance, you can take your coverage with you if you change jobs or retire.⁴

Your plan pays an additional benefit if a medical condition reoccurs for: Invasive Cancer, Heart Attack, a Stroke, and a Coronary Artery Bypass Graft. A recurrence benefit is only available if the initial benefit has already been paid for the covered condition. And there is a benefit suspension period (or waiting period) between recurrences. Also, a 90-day treatment-free period applies to Invasive and Non-Invasive Cancer.
